Technical Skills

- React JS
- Node / Express / NextJs
- Javascript / Typescript
- Python / Java / C / C++
- React Native
- PHP
- Flutter
- Kotlin
- Docker, DevOps
- Unit Testing
- Microsoft Azure, AWS
- MUI / Tailwind CSS
- MySQL / MongoDB
- Git
- PM Tools (Trello)

Chirasi Amaya

Software Engineer Intern

A responsible and dedicated computer science student, passionate about the ever-evolving world of technology. With a keen interest in full-stack web development and mobile app development, I have a track record of creating user-friendly, innovative solutions. I am eagerly seeking for a professional experience where I can apply my knowledge and skills while contributing to exciting projects and collaborate with like-minded professionals.

Education

- 2020 – 2023

  Bsc in Computer Science

  University of Colombo School of Computing

- 2019

  GCE Advanced Level

  Combined Mathematics - A   Chemistry - B   Physics - C

Projects

- **TruEvent Horizons** – Event Planning Managment System
  - **G**itHub

  – Designed and developed a web-based Event Planning Management System
  – I worked on simplifying reservations for customers, empowering service providers, and facilitating report generation and feedback collection.

  Tech Stack Used – HTML , CSS, JS , PHP , PHPMailer , ChartJS , AWS , MySQL , GitHub

- **Stylioo** – Salon Managment and Online Reservation System
  GitHub

  – Led Stylioo, an innovative salon management and reservation system that is accessible on both web and mobile platforms.
  – Key features include streamlining online bookings, reducing wait times, and providing detailed service information.
  – My main role involved project management and overseeing critical system components.

  Tech Stack Used – React , MUI , Tailwind CSS , Prisma , MySQL , NextJs , React Native , ExpressJs , ChartJs , GitHub

- **StudentHub** – Online Student Managment System
  GitHub

  – Developed an intuitive online student management system using the MERN stack.
  – Seamlessly managed CRUD (Create, Read, Update, Delete) operations, enhancing administrative tasks.
  – Implemented secure and authenticated signup and sign-in features to safeguard data privacy and control access.

  Tech Stack Used – MongoDB , ExpressJs , React , NodeJs , CSS , GitHub

Interests

- Machine Learning
- Cloud Computing
- UI/UX
- DevOps
- Generative AI
- Data Science

Soft Skills

- Leadership
- Collaboration
- Team Work
- Time - Management
- Adaptability
- Analytical Thinking
- Problem-Solving
- Communication
- Creativity
- Interpersonal-Skills

Certificates

- Crash Course on Python [Coursera]
- Introduction to Mobile Development [Coursera]
- UI/UX Course [Great Learning]
- Introduction to Cloud Computing [Coursera]
- Introduction to DevOps [Coursera]
- Supervised Machine Learning: Regression and Classification [Coursera]
- React Basics [Coursera]

Achievements

- Finalist – IDEALIZE App Development Competition [2023]
- Participation – FreshHack Competitive Programming [2021]
- Participation – CODERALLY Online Hackathon [2021]
- Participation – ReidXtreme Competitive Programming [2021]
- Participation – IDEAMart App Development Competition [2021]
- Participation – REIDCON Competition [2020]

Extra - Curricular Activities

- Member – ISACA UCSC Student Group
- Member – IEEE Student Branch of UCSC
- Member – LEO Club of UOC
- Member – Astronomical Society of UOC
- Member – Exploration Club of UCSC
